

SHALINI PANDEY

Phone no: +91-6387282314 | **Email:** pshalinip2004@gmail.com | linkedin.com/in/shalini-pandey | **Location:** Ghaziabad

Summary

AI/ML Engineer Trainee with hands-on experience in machine learning, deep learning, and computer vision. Completed a research internship at NIT Delhi focusing on medical image analysis and CNN-based architectures. Proficient in Python, PyTorch, TensorFlow, and developing full-stack AI applications using Django. Experienced in building AI-driven detection systems, preprocessing large datasets, and evaluating models using industry-standard techniques. Seeking an opportunity to contribute to innovative AI/ML solutions while enhancing technical expertise.

Skills

Programming: Python, C, PHP, JavaScript, **Frameworks & Tools:** PyTorch, TensorFlow, Django, Node.js
ML & Deep Learning: CNNs, Computer Vision, NLP **Databases:** MySQL, MongoDB

Experience

AI/ML Engineer Trainee, Truwix Tech Solution Pvt. Ltd. Sep 2025 – Jan 2026
Ghaziabad

- Developed intelligent chatbot agents using NLP and ML techniques, achieving 85%+ intent accuracy and improving automated response efficiency by ~30%.
- Designed and implemented frontend UI, backend logic, and integrated database connections for end-to-end project functionality.
- Gained hands-on experience in building and deploying full-stack AI-driven applications in a production environment.

Research Intern - Deep Learning & Applications, National Institute of Technology (NIT) Jun 2025 – Jul 2025
Delhi

- Conducted research on deep learning models for medical image analysis using CNN-based architectures.
- Implemented ResNet and EfficientNet models for disease classification on medical imaging datasets.
- Evaluated model performance using confusion matrices, classification reports, and standard metrics.

Projects

Skin Lesion Classification Using DINOv2

DINOv2 | PyTorch | ISIC 2019 Dataset

- Developed a multi-class skin lesion classifier using DINOv2 on ISIC 2019 + curated dataset (~25,000 images).
- Achieved 87% test accuracy through self-supervised learning; reduced manual preprocessing workload significantly.
- Supported early melanoma detection through ethical model design and responsible AI principles.

DocuMind AI

React | Node.js | Pinecone | Google Gemini

- Developed a SaaS Rag chatbot capable of querying entire document libraries with 100% source grounding.
- Implemented mutli-stage retrieval(Vector Search + Cohere Re-ranking) for superior answer precision.
- Designed a Split-Viewer interface for real-time PDF interacion and page-level citation mapping.

Education

B.Tech in Computer Science & Engineering (AI/ML), NITRA Technical Campus 2023 – 2026
Ghaziabad

Diploma in Information Technology, Hewett Polytechnic 2020 – 2022
Lucknow

Certifications

- Oracle Cloud Infrastructure 2025 Certified Data Science Professional
- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional
- Deep Learning & Its Application — NIT Delhi
- Course Specialization Certificate in Machine Learning
